

Independent Business Review:

(Due Diligence & Risk Management).

Designed with the Independent and Community Sectors in mind, the NWA Independent Business Review Service is:

- ☐ **Fast**
- ☐ **Flexible**
- ☐ **Focused**
- ☐ **Affordable**

This is achieved by harnessing the expertise of a first class team of experienced professionals in the Scottish Renewable Energy Field, working together as the North Wind Team.

The North Wind concept offers “One Stop Shop” access to:

- ☐ **Law:** Jim Wallace (Lord Wallace of Tankerness) QC.
- ☐ **Engineering:** Richard Gauld.
- ☐ **Finance:** Alistair Gray.
- ☐ **Valuation & Procurement:** Mike Craigie.

www.northwindassociates.co.uk/people

The NWA Independent Business Review falls into two phases:

- i. The preparation of a “tailor-made” Due Diligence proposal combined with a comprehensive introduction to Risk Management.
- ii. The performance of a focused, project specific, Due Diligence check resulting in the issue of a comprehensive report.

☐ **Fast?**

We offer an immediate response indicating our availability, followed by phases i. & ii. (above).

☐ **Flexible?**

Recognising the extreme diversity of projects in the independent & Community sectors, NWA scopes & designs a unique Due Diligence proposal for each project.

☐ **Focused?**

This allows us to focus on key issues specific to the project under review, and to “add value” to the project’s Business Plan, while offering lenders the assurance they require.
